GRASSHOPPERS ON THE PRAIRIES.—A correspondent of the Chicago Journal is denouncing the armies of grasshoppers that are so abundant on the prairies this season. They differ from the European, being horse-headed, and winged like the African locust, and are the worst kind of those plagues. They are said to have increased very much within the last three years, and threaten to become a very serious evil. The ravages of these insects are somewhat mitigated by the havoc made among them by the prairie fowls, which eat them greedily; and thus destroy enormous numbers during the season, and prevent their increase to a proportionate extent. It is recommended, in reference to the usefulness of these birds in this particular, that the killing of them should be prohibited by law until the harvest is ended—any between February and September.

The grasshoppers have in times past caused great calamities of famine and pestilence, in the old world. In July, A. D. 591 and 1543, they ravaged as if under military order, and 800,000 men perished by famine and the pestilence. They wasted France A. D. 847 and 1842, when their leaders constantly flew a day before the host and marked the place to be devoured. These first appeared without wings; then with two wings; and lastly with four. They were blown into the English channel, and were thrown on the beach in such numbers that the stench caused a pestilence.

The immense extent of our soil, its great productiveness and diversity of crops, would seem to forbid the possibility of a famine ever happening in this favored land. But if such should ever be the case, it would most probably be brought about by the agency of these terrible scourges.

MELANCHOLY SUICIDE.—The Pensacola correspondent of the Mobile Register, under date of September 17, furnishes the following melancholy particulars of the suicide of the venerable Judge Garnier of that city:

Our old friend, Judge Garnier, committed suicide last night (Sept. 19) by drowning himself. I have always been under the impression that he was about one of the happiest men in this city; but such was not the case. From letters he wrote to several of his friends, and which were dated some time back, it appears he had for some time past been making his arrangements to commit the deed. He assigns as his reason, "poverty,"—that he had but \$120, which was, in Mr. Hyer's chest—and that it would take all of that to pay his debts and bury him decently. He wrote a few lines at midnight to Dr. Smith, which he gave to a black boy, and told him to hand it to Dr. Smith early in the morning, which was to inform him where his body might be found. He had everything arranged. He directed notes to all to whom he was indebted, even to his washerwoman. He laid his clothes in which to be buried, on the bed, and directed where everything might be found. He sewed two large bricks in a towel over his breast and to his back, and pinned a towel over his breast and back, and walked down to the end of the wharf with his cloak around him and a cap on.—When he got to the place, he laid his cloak down, placed his cap on it, put a brick in his cap, and tying one end of a rope to the end of the wharf, and the other around his waist, threw himself into the water, where he was found this morning. Last night, at dusk, he walked down on the wharf as was his custom every evening with Mr. Hyer, Mr. Mitchell, Mr. Kelly and Mr. Ahrens, and was perfectly cool speaking of the Mexican war, etc., and his letters and the note written at midnight were very neatly executed.

ARRIVAL EXTRAORDINARY.—The wife of Mr. Bourke, gardener to Andrew Charrigan, Esq., Bloomingdale, N. Y., presented her husband on the morning of the 18th ult., with three fine children—two boys and a girl. Mother and children doing well.

Queen Victoria's "best go-to-meeting clothes" cost but a million of dollars. Those that Bonaparte used to wear, when emperor, on state occasions nearly a million!

THE DAILY NEWS.

Newport:

SATURDAY, OCTOBER 2. 1847.

BY O. F. JACKSON, 97-THAMES ST.

THE LAST MEXICAN RUMOR.—We copy the following from the N. O. Delta, of the 21st inst.

We learn that one of the Mexican prisoners now in our city received, via Tampico, by the last arrival, a letter from a friend in the city of Mexico, dated on the afternoon of the 28th, in which it is stated that Gen. Paredes had entered the city of Mexico with a large force, and arrested Santa Anna and imprisoned him in the carcel San Jago. We give the report for what it is worth, neither denying nor endorsing its truth. His by no means improbable, as Paredes at the last accounts was at the town of Toluca, near the capital, ready to take advantage of any mis-step of his old enemy, or any confusion in the capital, to regain his former position and influence in Mexico. The temper of the mob is admirably suited to such a movement. At our last accounts they were much incensed against the Americans and Santa Anna, and were ripe for a revolutionary demonstration. Paredes is just the man to snatch the golden opportunity and profit by it. He would not doubt rally all parties around him, and arouse a warmth of zeal and enthusiasm which it is vain for Santa Anna to endeavor to excite. He is a man of gallant, dashing and commanding address, and will no doubt attract the general confidence of the multitude. He comes, too, under circumstances which demonstrate his sincerity and patriotism. At the darkest hour of his country's history, when her powerful enemy has grasped her body in his mighty talons, and is pressing them home to her very heart—when foreign armies environ her States, and foreign fleets blockade all her ports—then it is the gallant *Cabellero de Guadalupe* leaves the country circles of Paris and Madrid, and forgetting the recent ingratitude and harshness of his countrymen, rushes to her aid in the hour of adversity and peril. There is certainly in this some of that spirit, for examples of which we are not wont to look to the Mexicans. May not this spirit prove contagious, and infuse a little more vigor and firmness into the Mexican resistance to our arms.

FROM FORT LEAVENWORTH.—We learn from the St. Louis New Era, that Major Edmonson, with the larger portion of Price's Regiment, had arrived at Fort Leavenworth from Santa Fe. They reached the Fort on Saturday and Sunday, the 11th and 12th, and came through in forty-three days, leaving Santa Fe on the 2d of August. Seven companies of the Regiment were at Fort Leavenworth on the 15th. They met with no interruption from Indians on the route, but nearly every day met either government trains, troops or traders. The advance companies of Col. Easton's regiment were within a few days travel of Santa Fe. Gen. Price, it is said, intends to remain in New Mexico. The returned volunteers will remain at the Fort until paid off, which will be in a few days. Matters appeared to be in a peaceable condition at the time of their departure from Santa Fe. Six of the prisoners charged with the murder of Lieut. Brown, McClenahan and Quisenberry, were hung on the 2d inst., under a sentence of a court martial. The remains of the late Lieuts. B. F. & G. E. Bachland were brought to Fort Leavenworth, and will be brought to this country for interment. Capt. Horine's company have likewise with them the ashes of Charles Quisenberry and James McClenahan. Capt. Pelzer's company for the Plains had arrived. One or two others from the interior were at the Fort in readiness. Col. Powell and the whole of his battalion had left, and it was stated would repair to a point on Table Creek, some 250 miles above the Fort, where they would pass the winter. The troops from New Mexico bring no news of interest. All was quiet, and but two companies of Price's Regiment remained, most of the men belonging to them having been captured.

The republics of Peru and Bolivia were not on very friendly terms by the last week. All commercial relations between them were suspended, and according to accounts it would not be long before some more definite marks of ill feeling would take place. Indeed, there was a rumor in Lima on the 10th of May that the Bolivian

troops were about to enter the Peruvian territory. Meanwhile Bolivia was tranquil, as far as her internal arrangements were concerned; and, notwithstanding the threatened war, was advancing all the useful improvements of her internal government.

A MAN BURIED IN A WELL.—As Rufus Graves, formerly of Litchfield, was clearing a well for Mr. George Folsom, of Monmouth, while stooping down to fill the bucket, he heard a rumbling noise and looking up perceived a large stone coming down upon him, which he made out to avoid partially, when instantly, some four feet above his head, he being still in a stooping position, the stoning of the well closed in and completely covered him. This was at three o'clock in the afternoon. The well was about thirty-three feet deep, and the whole of the stone was to be cleared out before he could be reached. People came in from the adjacent places, and the work went on with much zeal. After being about half cleared out he was heard to cry out, which encouraged the workmen. After incredible exertions he was reached about one o'clock at night, and rescued, but little hurt. At first he could not stand, but recovered in a short time so as to walk about. It seems (by his account) that the large stone which first fell in lodged upon his knee, and sustained the whole stoning above, which was the cause probably of his being uninjured.

Matters and Things in General.

The Post Office law requires that the list of letters should be published in THE PAPER HAVING THE LARGEST CIRCULATION. They are published in the Daily News, by authority.

The object in advertising merchandise is to let the public know that the advertiser has got such and such article. Those wishing to inform the public as to what they keep to sell would do well to advertise in the News.

Our town is as quiet as could be wished, and a little more so, to those who are fond of business sufficient to keep the blues off. The strange faces among us are few. The Ocean and Atlantic House closed last week—the Bellevue remains open, having at present twenty or thirty boarders. This has been a very good season for our boarding houses, and in the height of the season another house like the "Ocean" would have been filled. A larger number of rooms have been contracted for at the Bellevue House for next season, than ever before, so long in advance. This promises well, and Newport is becoming more popular as a watering place every year.

Yesterday was a beautiful day, and we hope we shall have a few more of the same sort.

The razor strap man is lecturing on temperance in Boston.

All eyes are at present turned towards Mexico, and much speculation is had as to the prospects of peace. Nothing definite has been heard from Gen. Scott for some time, though various rumors are in circulation, in which no confidence can be placed.

The weather having been stormy on Sunday night last, the lecture which was notified for that evening may be expected to be delivered to-morrow evening at the Central Baptist Church, by Rev. Mr. Dumont, if the weather should be pleasant; and a collection taken up for the benefit of the Central Society.

It will be seen by reference to the Mail arrangements on the first page of our paper, that we have but one mail in Fall River daily, and also that the Boston mail closes at 9 o'clock in the morning. The Boston mail will not arrive hereafter till about 4 o'clock in the afternoon.

The New York Express says the money market is extremely easy, and the first class paper is unprecedentedly scarce. Money is freely offered on Government securities at 5 per cent, and new paper passes at 6 and 7 per cent.

The President of the United States was quite ill yesterday, so much so that he was confined to his room and issued strict orders to his domestics not to let the circumstance be known to the public if possible. *Cor. Tribune.*

A SLANDER REFUTED.—The Boston Times denies that Postmaster Cave Johnson has chartered fourteen mud turtles at a hundred dollars a year, to convey the mails between New York and Boston!

IMPORTANT FROM MEXICO.

HOSTILITIES BEGAN.

We are indebted to Mr. Anthony Stewart, steamboat agent, for a copy of last evening's Boston Bee, from which we condense the following.

News from Vera Cruz to the 15th ult. has been received.

Mr. Trist's proposition has been rejected, and hostilities re-commenced on the 8th Septem. On that day a battle was fought in which the American loss was about TWO THOUSAND, and the Mexican loss was very large. The Americans victorious.

Two of the streets in the city of Mexico are in the possession of our army.

Gen Worth had been badly but not mortally wounded.

By the 20th it was thought that 3000 fresh troops would be assembled at Vera Cruz, ready to march for the interior.

RETURN OF GENERAL SCOTT.—It is rumored in Washington that the President has received a despatch from Mexico, stating that General Scott is on his way home!

The Jury in the case of Midshipman Polack, tried in Buffalo, for shooting at Mr. Jewell, editor of the Commercial Advertiser, could not agree and were discharged. Eleven it is said, were in favor of conviction.

MEMORANDA.

The schooner *Metanora*, Capt. Hopkins, which arrived at this port on the 30th ult. from Philadelphia, experienced a heavy gale from the East on the 29th, fore and aft jibs blown away. Saw a pilot boat to the eastward of Montank, set colors and run down for her, but she seeing their crippled condition, made all sail and ran away, probably to avoid rendering assistance. It was thought to be one of the New York pilot boats, No. 4.

To enable Mankind to Die of Old Age without Distress.—The public may not be aware that the Rev. B. Hibbard's Vegetable Pills are the very best Family Medicine extant; perfectly reliable in every emergency. No one can foresee the moment when they or their children may be attacked. Disease comes like a thief in the night, and in times of peril, anxiety and danger, it is a relief to the mind to have at hand a remedy so certain, prompt, and efficient in warding off as well as curing disease. Ship Fever, Typhus Fever, Gonorrhea, and Bilious Diseases are rife throughout the land. To travellers, emigrants, soldiers, and families, we say neglect not to provide yourself with so potent a passport as these sovereign Vegetable Pills. Remember the name of Rev. B. Hibbard is on the label of each box. All others are spurious. T. R. Hibbard, M. D., 95 John-st., New York, proprietor. See advertisement in another column.

The Lady's Faith in Radway's Soap. I knew my face was Tanned and Freckled. With Pimples, and with blotches speckled Sunburn and other annoying Spots, With Scary, Morpew and Salt Rheum, Upon my countenances. To reign with full authority.— But, ah! my friends, I'll cure them soon, With a soap of a superior quality. Radway's Chinese Medicated Soap. Is the name of this precious Soap: It really cures all herein stated.— Either Pimples, Blisters, Tan or Spots. The lady said she spoke the truth. She found the Soap the friend of youth, And beauty now assumes its place, Upon the clear, transparent face, All ye who have upon your skin, Pimples or blotches, Pustules or Tan, On the neck, the nose, the face or hands, Or if perchance upon your arms— And would possess angelic charms, Fear not to rest your faith and hope In Radway's Medicated Soap.

A secret which baffles the ingenuity of all who have attempted to analyze its properties. Its way's Chinese Medicated Soap. The extraordinary effects of this delicious emollient is truly astonishing, for no sooner is Radway's Soap applied to the surface, than tan, sunburn, pimples, blotches, tetter and other excrescences speedily disappear. It softens, soothes, bleaches and sweetens the skin, and imparts beauty to the complexion of all who use it. Sold for 2s. for large, and 1s. for small, at 22 Courtland st. N. Y. R. J. TAYLOR, Agent.

S. S. MERRILL, at the Machine Shop of the Boston & Worcester Railroad. Sold in this town by Wm. B. Greene, and M. Freeman & Co.

The most prolific source of disease is undoubtedly impurity of blood. And to it no people are more subject than those of this country; from the plentiful and comparatively luxurious diet in which their prosperity enables them to indulge. To purify the blood, and relieve bowels from the unhealthy state produced by that impurity, Brown's Sarsaparilla and Tomato Bitters are extremely well calculated. They will eradicate those impure humors which are the source of uncleanliness to the system, and occasion such deformity when they make their appearance exteriorly. The demand for the above Bitters is rapidly increasing in all places where they have been sold, and there is scarcely a day passes but we have some ordered by our first physicians, for dyspepsia, indigestion, weakness of the stomach and limbs, costiveness, general debility, rheumatism, &c. In fact there is not the least doubt but they are the best alterative now in use for a disordered system. The vegetable that these Bitters are made of is composed of a rare too well known to have the least said in their favor. Remember in all cases when you purchase Brown's Sarsaparilla and Tomato Bitters, to see that the directions are signed by the proprietor, F. BROWN, in his hand-writing, without which none are genuine. For sale by R. J. TAYLOR.

SAND'S SARSAPARILLA.—Thousands of persons are heirs of scrofula; they come into the world with the taint in their blood, which, by the time they reach maturity, develops itself in some form or other. All such persons should keep a stock of this preparation by them, if at a distance from any town or city where it may be procured. Nor should they wait for the disease to show itself in ulcers or eruptions but should keep it down by frequent resort to this unrivaled antiseptic. The seeds of scrofula, though hereditary in the blood, will not germinate while that fluid is under the influence of this powerful detergent, which, if administered at intervals, will keep down the hereditary tendency through life. As "prevention is better than cure," we recommend all who have a predisposition, hereditary or otherwise to ulcerous or eruptive diseases, to go through a course of this medicine at least every Spring and Fall.

Prepared and sold by A. B. & D. SANDS, Druggists, 100 Fulton st. N. Y. Sold also by Dr. R. R. Hazard and R. J. Taylor, Newport, by J. Russell, Fall River, by G. Dyer, For sale by R. J. TAYLOR.

IF Rev. B. HIBBARD'S Vegetable and Anti-Bilious FAMILY PILLS are not found to be the most convenient, the best physic you ever tried, and fully equal to any recommendation of them, if you do not find that one of these pills does more good than from four to six of any other kind, every agent stands ready to receive the empty boxes and refund the money.

These Pills are recommended as being without an equal in all Bilious attacks affections of the Liver, the Lungs, Stomach, or Bowels, caused by taking cold, or obstructed perspiration. They carry off the bile, cleanse the stomach and bowels, and re-open the closed pores of the body, thereby letting out the insensable perspiration through its accustomed channels, and relieving at once the internal organs. Also in old chronic affections, as Dyspepsia, Sick Headache, Rheumatism, &c. Mind the Directions, which go with each box. Every agent has circulars of these Pills to give away.

Half a Pill is the usual dose, though some require One Pill, or even more. Children of one year and over, one-quarter of a pill, of 7 years and over, half a pill. **The great and only Successful
Remedy for the cure of Con-
sumption,**

**IS Dr. E. W. Vandersmith's INDIAN COUGH
BALM and LUNG BALM.**

READ.

White Plains, April 20, 1847.

This is to certify that I have been afflicted for
five years with a cough, pain in the chest, night
sweats, difficulty in breathing, etc., and I also
expectorated a large quantity of frothy matter and
blood, from which I was reduced to a perfect
skeleton, my throat was very much ulcerated. I
had lunar caustic applied to my throat twice a
week, but received no benefit; I have used one
hundred different kinds of Patent Medicines, re-
commended by my friends, but all to no purpose.
A friend of mine, Mr. Willett, whose lungs had
been afflicted for two years past, was cured by Dr.
Vandersmith's Medicine. He insisted upon my
trying Dr. V. and I did so. After I had used his
medicine 15 days, I expectorated large quantities
of yellow frothy matter, my chest expanded, and
my difficulty in breathing subsided. I persevered
with his medicine, and the result has been, I am
perfectly cured of all my sickness. I recommend
every consumptive to try Dr. V.'s medicine, I am
confident it will cure you. Your sincere friend,
EDWARD C. THOMPSON.

Sworn before me this 21st day of April, 1847.

A. H. MICKLE, Mayor of the city of N. Y.

Inflammation of the Lungs.

New York, June 19, 1847.

Dr. Vandersmith—I have been subject to a
cough, pain in the chest, difficulty of breathing,
etc., for many years past. About four months
ago, I took a severe cold, which settled on my
lungs. I was unable to attend to my business
during the day. I would have dreadful coughing
fits, that I thought it was impossible for me to
survive unless I could get relief. The excessive
night sweats, had reduced my whole body to a
skeleton. I expectorated white frothy mucus,
in fact, should I give the full particulars of my
case, it would be almost incredible. I was recom-
mended to try Dr. Vandersmith's Indian Cough
Balm and Lung Balm. I consented; when I
used it about one week, my cough decreased
considerably, which gave me great hopes. I con-
tinued with the medicine according to directions,
and the result has been that I am restored to health,
a blessing that I have not enjoyed for years, until
the present. I sincerely believe had I not made
use of Dr. Vandersmith's invaluable medicine,
that I would be mouldering in the silent grave.
Therefore I believe that I am doing nothing but
what is justice, in stating the above facts, so that
you may show it to all the afflicted who may call
upon you to administer to them. I shall be
pleased at any time to converse with the afflicted
who call upon me. Your grateful patient and
friend,

JAMES B. HENDERSON,

No. 703 Washington street.

Sworn before me this 19th day of June, 1847.

W. V. BRADY, Mayor of the City of New York.

Consumption.

Staten Island, June 10, 1847.

Dear Sir—I take great pleasure in giving you
my certificate, last December I was attacked with
a severe cough, pain in my left side, loss of appe-
tite, and continual raising of white and yellow spu-
rous. Some days I raised a half-pint of mucus,
streaked with blood. I have been under the treat-
ment of several physicians, I was recommended
by Dr. Mitchell of Philadelphia, to use a Breathing
tube. I purchased one, I only made use of it one
week, it was the cause of bringing on a hemor-
rhage of the lungs, which reduced me so much that
I was unable to sit up, my voice was entirely de-
stroyed. I was difficult for persons to understand
me. I saw Dr. Vandersmith's Medicine recom-
mended very strongly by a patient whom he had
cured. I sent for half a dozen bottles. I received
them, and from that, which induced me to pur-
chase, I took according to the directions, and it
cured me perfectly sound.

Yours, &c. ROBERT WILLEY.
